Cobalt (Co)		200 mg/kg
Magnesium (M)		1000 mg/kg

We are proud to announce a new bypass / mineral block to the Australian ewe and lamb market.

PRE-LAMB is a one-stop vital nutrition source for all lambing ewes. Lambing is stressful enough, but combined with varying pasture conditions, ewes can take a flogging if not supplemented correctly. **PRE-LAMB** is designed to help get those lambs on the ground and growing.
