

# BIG 100kg BLOCK FOR QLD!

## PRO-90<sup>®</sup>

A 30% UREA BLOCK FOR CATTLE

**JAMES DICKSON**  
National Sales Manager  
Mobile 0403 045 665

“North Australian pastures vary enormously in quality from month to month. As you know, this impacts on grazing profits. PRO-90 blocks help overcome these big nutritional swings in cattle diets. By providing 30% urea, bypass proteins, macro & micro minerals, PRO-90 allows cattle to maximise pasture digestion, even when pastures deteriorate. No sheds or troughs needed - just place in the paddock - stock help themselves ... *simple, & cost effective nutrition from 4 Seasons.*”
