

BREED-PLUS

A Protein Loose Mix Supplement, Designed for Sheep and Cattle, containing Urea, Phosphorus & Minerals

BREEDPLUS is a quality loose mix providing phosphorus, urea and minerals for cattle and sheep. Some graziers prefer to feed out a loose mix at various times of the year, as a method of introducing quality nutrients quickly into the diet of stock. BREEDPLUS is a handy and convenient product that allows stock to consume individual amounts of nutrients as needed. This product should ideally be fed out in troughs that are protected from rain, as urea can become toxic if allowed to sit in water.
