

STUBBLEBUSTER

Exclusive to Landmark and available now!

A Quality Protein Block for Sheep and Cattle Grazing Stubble or Dry Pasture

STUBBLEBUSTER is Australia's largest selling dry feed block, mainly designed for summer grazing of stubble and dry pasture.

This block is balanced with protein combinations of urea, bypass meal and crushed grains, as well as essential minerals and trace elements. Sheep and cattle will clean up stubble and dry feed in paddocks, simply by feeding out this product.

Make the most of your dry feed with **STUBBLEBUSTER**. Why waste money on grain and high cost feeds, when you can utilize valuable stubble paddocks, or dry feed areas that would otherwise be of little value?

The nutritional benefits associated with feeding high quality proteins and minerals allows stock to consume and digest more of these dry forage sources than would otherwise happen. **STUBBLEBUSTER** increases rumen stimulation, which in turn increases dry pasture digestion.

Cattle and sheep will shine on **STUBBLEBUSTER**.

Average Consumption rates:

Cattle: Approx. 4 blocks per 100 heads per 7 days

Sheep: Approx. 3 blocks per 100 heads per 30 days

Note: Average block consumption can double in poor conditions.

Net Weights: 20kg and 30kg blocks

WARNING: This product contains Urea that maybe harmful to animals if not properly administered. Do not feed to starving animals or animals in poor condition. Make sure that a bulk of roughage is always available when feeding this product. Rain may cause this product to deteriorate. Do not place this product near dams or creeks as cattle may roll block into water. Do not feed out other Urea products while feeding this product.

TYPICAL ANALYSIS

Bypass Protein Meal		
Crushed Grain	200g/kg	20.0%
Urea	100g/kg	10.0%
Total Protein	320g/kg	32.0%
Phosphorus (P)	10g/kg	1.0%
Calcium (Ca)	30g/kg	3.0%
Sulphur (S)	25g/kg	2.5%
Molasses	50g/kg	5.0%
Salt (NaCl) Min.	550g/kg	55.0%
Max.	560g/kg	56.0%

Note: The above analysis represents the constituent ingredients and relative proportions of the typical product only. Actual constituent ingredients and relative proportions may vary from that outlined above.
