

# MINERAL SALT

## A Multi Mineral Salt block for Cattle and Sheep

MINERAL SALT is a Pro-Active Multi-Mineral Salt Block intended for use as a supplementary source of essential dietary minerals for cattle and sheep.

4 Seasons have blended pure Australian solar evaporated sea salt, with an extensive range of Macro Minerals and Trace Elements. This allows all livestock to enjoy a premium mineralised salt that meets or exceeds imported rock salt analyses.

Salt is vital for most animals, especially those animals that are productive or working. Salt is a vital electrolyte, as well as being important for the production of rumen fluid and saliva. Mineral salt combines both salt and multi-minerals to allow stock to freely choose when they need vital nutrients. Mineral salt is effective, convenient and safe to use for all stock.

### Average Consumption rates:

**Cattle:** Approx. 100-300g per head per day

**Sheep:** Approx. 10-30g per head per day

Suitable for Cattle, Sheep, Horses, Goat and Deer

### \*TYPICAL ANALYSIS

Sodium Chloride (NaCl)	70.75%	
Calcium (Ca)	100g/kg	(as carbonate)
Copper (Cu)	122.5 ppm	(as Sulphate)
Iodine (I)	340 ppm	(as potassium iodine)
Cobalt (Co)	100ppm	(as Sulphate)
Zinc (Zn)	200ppm	(as Sulphate)
Selenium (Se)	1.94ppm	(as Sodium Selenite)

Note: The above analysis represents the constituent ingredients and relative proportions of the typical product only. Actual constituent ingredients and relative proportions may vary from that outlined above.

Net Weights: 20kg bags

**CAUTION:** Do not use at the same time as any other selenised fertilizer prill or product without consulting a veterinarian. Do not exceed stated dose or frequency. In sheep, liver levels of copper may be quite variable. Consequently, there is always a risk of copper-poisoning (deaths) occurring following copper supplementation in this species.
